

**PART TIME
PROFESSIONALS**

A Cost Effective Solution to your Company's 'in-house' Accounting Requirements

The Benefits

Easy...

No upfront recruitment fees

Fast...

Our network of qualified Accountants is available immediately

Cost Effective...

An experienced qualified resource for your business – part-time...without the full-time cost

There are no employment headaches...

As independent consultants we remove the headaches of superannuation, PAYG, payroll etc.

What is Part Time Professionals?

Part Time Professionals is a new concept allowing businesses to source professional, qualified and experienced Accountants without the full-time cost.

Part Time Professionals was formed in 2006 to meet business demand for cost effective in-house accounting resources. It provides a creative way to satisfy the skills shortage for Finance Professionals and encourages finance and accounting professionals to work for companies in permanent part-time or project capacities.

Your company can now afford a more experienced and qualified professional at a part-time cost!

With over 150 members of its CFO Network™, Part Time Professionals draws upon its extensive pool of senior Accountants, Financial Controllers and Chief Financial Officers throughout Australia and assists companies in Sydney, Melbourne, Brisbane and Adelaide.

Our clients include ASX listed companies, BRW fast-growth leaders, companies in pre-listing stage, foreign subsidiaries, fund managers and SMEs.

Whatever your company size or industry, Part Time Professionals is a viable option.

What Can Part Time Professionals Do For You?

Our members have assisted clients in coordinating, managing and administering all their financial functions including financial and cash flow reporting, budgeting and forecasting, cost control, business improvement strategies, accounting processes and controls, taxation, fund raising, acquisitions, disposals and strategic growth advice.

This enables senior executives to focus on the running and growth of the business.

Our members provide support to existing finance staff during periods of high workload including statutory account preparation, due diligence assistance and budget preparation.

A variable cost solution to your peak time requirements.

Our members provide in-house training and mentoring for less experienced accounting staff. This helps motivate and retain the existing team.

An in-house staff retention strategy and career development solution.

We provide a new and modern solution for clients reviewing their in-house accounting needs. Clients now have a real choice. Recruitment of a full-time employee is no longer the only option available.

Providing a new and alternative accounting solution for clients.

Testimonial

Our business benefited greatly from having a Part Time Professional. This was a cost effective way of gaining the experienced and qualified accounting resource we needed in-house. It provided a very flexible solution during a period of major change for our organisation.

Proteome Systems Limited (ASX: PXL) – Stephen Porges, CEO

What is the Part Time Professionals' Advantage?

Part Time Professionals is **not a recruitment agency**. We promote a growing network of experienced and qualified finance executives who can provide the in-house accounting support that you need without the full-time cost.

80% of our clients have received a selection of candidate resumes within 48 hours and without the need, or additional cost, of advertising.

We are owned and managed by qualified accountants and professionals who are experienced in the financial and accounting needs of companies in Australia. We are members of the Institute of Chartered Accountants, CPA Australia, Australian Institute of Company Directors and the Australian Venture Capital Association Ltd. Our principals have been CFO's of ASX100 listed companies and BRW fast growth winners.

You can trust our professional experience and advice.

Our accountants are all independent contractors – not employees.

There are no employment headaches.

We focus on long term successful relationships between our Accountants and our clients. **We do not charge any upfront recruitment fees** when the consulting assignment commences.

Reducing the upfront cost of your decision.

Our quoted rates are all inclusive. You are not liable for additional employment related on-costs including statutory superannuation, paid annual leave, paid sick leave or termination and redundancy benefits.

Saving your business those hidden extras.

Our Accountants work in-house at the client's premises. They are not an outsourced service. They are an integral part of the client's in-house team.

**Accountants are available when you need them
- where you need them.**

With members based in Sydney, Melbourne, Brisbane and Adelaide we will have the local solution for your requirements.

A choice of locally-based quality candidates – and a flexible cost effective solution. A real and tangible advantage.
